Just a heads up that Consol is reaching out to our WHL folks to follow up with biology. Greg is sensitive to the need to properly vet any response but we should have some discussions among ourselves and Greg soon.

Fw: BMT Technical Meeting Subject:

Maggie, the calendar looks like we're both in this week. Obviously need to discuss internally with EAID and WPD on what the details of this meeting should look like.

## Maggie & Greg,

I hope all is well over in Wheeling. It was nice to chat with you again up at Philadelphia, Maggie. I was just following up and wanted to see what your schedules looked like for a follow-up meeting to further discuss the biology and water quality data in the Miller Creek watersheds to facilitate the Buffalo Mountain permit.

We would be more than happy to come over to Wheeling to discuss if you want or you are more than welcome to drive down to Canonsburg. Right now, our schedules are relatively open the week of the 16<sup>th</sup> in July. Are there any days that work that week for you all?

Please feel free to give me a call if you want.

Thanks!

Christy
